

## Global Health Clinical Scholars 2021 Scholarly Projects

Participants in the Global Health Clinical Scholars Program are expected to identify and complete a scholarly project as part of their program requirements. The scholarly project provides trainees with the ability to explore a global health topic in-depth, via a mentoring experience. Trainees then present their projects at Northwestern's annual Global Health Education Day, held each spring. Examples of Scholarly Projects completed in 2021 can be found below.

| Name                | Program           | Title of Scholarly Project  | Type of Project                 |
|---------------------|-------------------|---|---------------------------------|
| Garcia, Roxana      | Neurosurgery      | Assessing Barriers to Essential and Basic Neurosurgical Care in the Public Sector Throughout Peru   | Original Research               |
| Visek, Caitlin      | Internal Medicine | Developing a Primer for Quality Improvement in Global Health  | Curriculum Development          |
| Guillaume, Stanley  | PM&R              | Global Impact of Golf for the Disabled on Player Health, Quality of Life and Self-Perception: A Thematic Analysis   | Original Research (Qualitative) |
| Malik, George Ross  | PM&R              | On Top of the World: Reaching Underserved Domestic and International Populations Through PM&R Residency Training  | Original Research               |
| Folsom, Susan       | OB/GYN            | Cultural Failings in the America's HPV Vaccinations: A Global Perspective   | Op-Ed                           |
| Sharlin, Jordan     | Anesthesia        | Online Regional Anesthesia Curricula to Address Provider Shortages in Limited Resource Settings (LRS) During a Global Pandemic  | Curriculum Development          |
| Murray, Alison      | Pediatrics        | Creating a Health Education Curriculum for Immigrant/Refugee Students at Sullivan High School   | Curriculum Development          |
| Truong, Oanh        | Family Medicine   | Facilitators and Barriers to Family Medicine Resident Engagement in Global Health: A Secondary Data Analysis of a CERA Study  | Original Research               |
| Miller, Christopher | Pediatrics        | Teaching Pediatric Residents to Use Point of Care Ultrasound for the Detection of Pneumonia   | Curriculum Development          |
| Lee, Ryan           | Internal Medicine | Changes in Fibrosis Liver Scores Using AST to Platelet Ratio Index (APRI) After Antiviral Therapy Initiation in Tanzanian Adults with HIV, HBV and HIV/HBV Co-infection | Original Research               |
| Brown, Oluwateniola | OB/GYN            | Improving Patient Preparedness Prior to Obstetric Fistula Repair Surgery in Rwanda: A Feasibility Study   | Original Research               |
